Sports Nutrition

L-CARNITINE 685 mg
TM115 • 60 Caplets

SUPPLEMENT FACTS		
Serving Size: 1 Caplet		
Servings Per Container: 60		
	Amount Per Serving	% Daily Value
L-Carnitine (Carnipure™)(from L-Carnitine Tartrate)	685 mg	**
** Daily Value not established.		

- May improve exercise recovery*
- May increase oxygen supply to your muscles*
- May increase blood flow and Nitric Oxide production, helping delay of discomfort and reduce fatigue*
- May reduce muscle soreness after exercise*
- May increase the production of red blood cells, which transport oxygen throughout your body and muscles*
- May also reduce symptoms of type 2 diabetes and its associated risk factors*

CLA 1.200 mg
TM116 • 90 Softgels

SUPPLEMENT FACTS		
Serving Size: 1 Softgel		
Servings Per Container: 90		
	Amount Per Serving	% Daily Value
CLA Conjugated Linoleic Acids 80%	1.200 mg	**
** Percent Daily Values are based on a 2,000 calorie diet.		
* Daily Value not established.		

- CLA (Conjugated Linoleic Acid) is a naturally occurring Fatty acid, a good fat, similar to an Omega-6 Fatty Acid but with health benefits for skin and weight loss. Usually found in foods such as grass-fed beef and dairy products, but only in low levels, which is why you need to supplement with it to get a proper amount.

1200mg CLA CONJUGATED LINOLEIC ACID

- Reduces Hunger: Taking CLA by mouth daily might help decrease body fat in adults and may reduce feelings of hunger, which leads to reduced food intake.
- Performs better: Taking CLA may help improve endurance and power for individuals taking part in aerobic exercise. Research shows that it may lengthen the amount of time that it takes for the body to get tired during exercise.
- Boosts Muscle Strength: Research shows that taking CLA, alone or with creatine and whey protein, helps increase strength and improves lean muscle mass in people who lift weights.

LIQUID L-CARNITINE
TM131 • 16FL OZ (473ML)

SUPPLEMENT FACTS		
Serving Size: 1 Tablespoon (15 mL)		
Servings Per Container: 30

VITALIZE DAILY
TM114 • 60 Caplets

- The traditional role of a multivitamin daily is to prevent nutritional deficiency. Those who suffer from malabsorption of vitamins and minerals, consume low-calorie diets, have small appetites or do not eat certain foods (as the strict vegetarians & vegetarians) should consume multivitamin supplements, because they contain nutrients to improve bone health, daily energy, colon health, eye health, heart health, and factors of immune defense.
- Supports heart health & fuels energy*
- For a healthy immune system*
- Aids in muscle function*
- Heart health with Vitamins B6, B12 and Folic Acid*
- Immune health with Vitamins A, C and E*
- Energy levels with B Vitamins*

TRIO-D 10.000 IU VITAMIN D3 10000 IU
TM119 • 60 Tablets

S U P P L E M E N T F A C T S		
Serving Size: 1 Tablet Servings Per Container: 60		
	Amount Per Serving	% Daily Value
Vitamin D3 (Cholecalciferol)	10,000 IU	
Percent Daily Values are based on a 2,000 calorie diet.		

- Vitamin D helps regulate and control the metabolism of Calcium and Phosphorus by aiding in the absorption of these two minerals, and by directly affecting the rate at which these minerals form and maintains bone health. Vitamin D3 is used for treating weak bones (osteoporosis), bone pain (osteomalacia), bone loss in people with a condition called hyperparathyroidism and an inherited disease (osteogenesis imperfecta) in which the bones are especially brittle and easily broken*
- This maximum strength Vitamin D3 supplement is formulated for short-term therapy*
- Supports immune, bones, teeth, and muscles health*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

VITAMIN A 10,000 IU & VITAMIN D 400 IU
TM108 • 60 Softgels

SUPPLEMENT FACTS		
Serving Size: 1 Softgel		
Servings Per Container: 60		
	Amount Per Serving	% Daily Value
Vitamin A (As Palmitate)	10,000 IU	200%
Vitamin D3 (As Cholecalciferol)	400 IU	100%
Percent Daily Values are based on a 2,000 calorie diet.		

- Vitamin A is essential for growth, development and maintenance of skin, tissue, bones, teeth and vision. Vitamin A also assists in maintaining a healthy immune system. Vitamin D works synergistically with vitamin A. It plays a role in absorbing and regulating calcium and phosphorus. It helps the body synthesize protein and is vital to the health of nervous system and kidneys. Vitamin A plus D helps in the absorption and use of calcium in the body, preventing rickets, osteomalacia and osteoporosis hormones*

CAL-MAG-ZINC D3
TM102 • 60 Softgels

SUPPLEMENT FACTS		
Serving Size: 1 Softgel		
Servings Per Container: 60		
	Amount Per Serving	% Daily Value
Calcium (as Calcium Carbonate)	426.7mg	42.67%
Vitamin D3 (Cholecalciferol)	267IU	66.75%
Magnesium (as Magnesium Oxide)	140mg	35%
Zinc (as Zinc Gluconate)	5.75mg	38.33%
Percent Daily Values are based on a 2,000 calorie diet.		

- Cal-Mag-Zinc D3 is a special formulation in maintaining bone health for supporting the adequate absorption and proper utilization of calcium by the body. Calcium strengthens bone and tissue. Magnesium plays a role in proper bone mineralization and active transportation of calcium and potassium ions across cell membranes. This is important to nerve impulse conduction, muscle contraction and normal heart rhythm. Zinc is a necessary element for maintaining a healthy immune system. Vitamin D is used for stimulating the absorption of calcium for healthy bones and teeth*
- Calcium and Magnesium are also involved in the muscle contractions and nerve impulses*
- Cal-Mag-Zinc D3 may reduce the risk of osteoporosis*
- Cal-Mag-Zinc D3 supports nerve and muscle function*
- Cal-Mag-Zinc D3 helps evaluate your mood and improve sleep quality*

TRIOCAL D3 Calcium + Vitamin D3
TM101 • 60 Softgels

SUPPLEMENT FACTS		
Serving Size: 2 Softgels		
Servings Per Container: 30		
	Amount Per Serving	% Daily Value
Calcium (as Calcium Carbonate)	1200 mg	120%
Vitamin D (as Vitamin D3)	200 IU	50%
**Percent Daily Values are based on a 2,000 calorie diet		

- Calcium is a mineral to build bones and keep them healthy, It helps blood clot, nerves send messages and muscles contract. About 99 percent of the calcium in bodies is in bones and teeth. Each day, calcium loses through skin, nails, hair, sweat, urine and feces, but bodies cannot produce new calcium. Vitamin D plays an important role in protecting bones and helps the body absorb calcium*
- Supports strong healthy bones*
- Helps maintain colon health*
- Reduces the risk of osteoporosis*

FLEXICAL D3 (CALCIUM & VITAMIN D3)
TM118 • 60 Tablets

SUPPLEMENT FACTS

Serving Size: 1 Tablet
Servings Per Container: 60

	Amount Per Serving	% Daily Value
Calcium (Oyster Shell Granular, 36%)	500 mg	50%
Vitamin D3 (Cholecalciferol)	125 IU	31.25%

- Flexical D3 plays a vital role in bone metabolism, but the deficiency or inadequate intake are common. If there isn't enough calcium in the blood, the body will take calcium from the bones, which weakens the bones. Vitamin D helps the body absorb calcium and phosphorus. Deficiency of vitamin D in the world is considered to be endemic and is therefore recommended supplementation of vitamin D in most of the guidelines on the prevention of fractures*
- Builds strong bones and teeth*
- May help prevent osteoporosis*
- Vitamin D3 enhances optimum absorption*

FLEXI JOINT GUMMIES
TM212 • 60 Pectin Gummies
